This is a dance. But I don't think a commission is the solution. Trials are the solution.

Yes we have no other option than to stop this ourselves. Communist Gov. Cuomo is trying to pass a bill that will allow him to remove you from your home indefinitely if he perceives you as a danger to society (contagious or not) under emergency declarations. If Biden gets in this will happen all over America and Trump supporters will be the first ones forced into concentration camps.

Not true they would not put us together in camps they would just kill us. Their side is weak and feeble and they know that if it ever came down to a fight the left loses. So their only option is to make people disappear with their oathbreakers. If President Trump is replaced with biden there will be disappearances all across America but it wont be to camps it will be to mass graves.

We need one senator or a representative to get the book thrown at them and a huge message made of said person. We've had enough. I personally believe all should be primaried, enough is enough. The old lady from South Carolina Lindsey Graham has gotten at least 10 letters from me letting him know this if he doesn't step up.

11 Senators have refused to certify the electors until a 10-day audit is performed.

"The group includes a number of incoming senators from deeply red states, including Bill Hagerty of Tennessee, Cynthia Lummis of Wyoming, Roger Marshall of Kansas and Tommy Tuberville of Alabama. Also included are freshmen Sens. Marsha Blackburn (R-Tenn.), Mike Braun (R-Ind.) and John Kennedy (R-La.), as well as longer serving senators Steve Daines (R-Mont.) and Jim Inhofe (R-Okla.)."

All those riggers caught on video manipulating the ballots need to be in prison.

Think about those warnings saying that tampering with US mail carries a prison sentence and massive, life-destroying fine. It looks excessively punitive when you first look at it, until you consider that even a single theft of

a postal object undermines public faith in a system so important that society would function much less well if we didn't have such rock-solid faith in its integrity.

Everything that can be said about the postal service goes a hundred times stronger for the electoral process. A single fake ballot should carry a multi-year prison sentence. The integrity of the election process *must be guaranteed*.

No. If they confess, they get a long drop hanging to break their neck. If they refuse to confess in the face of incontrovertible evidence, then they slide off the back of a horse and slowly strangle while dancing for the crowd. All public of course. For "transparency".

The 5 member portion from scotus will consist of the three Libs + Chief Justice pedo (with maybe lame-ass Kav or Gorsuch to still pretend there's a semblance of fairness). Will be nothing but another episode of America's next top politician; smoke & mirrors & an avalanche of bullshit.

"We all need to move on"

"It's time to heal"

"Democracy has spoken..."

I can already hear the BS echoing backward through time. No, the time for commissions and investigations is long over, ACTION is needed. Throw the geriatric child sniffer and his fake-black commie sidekick out on their asses, and give the presidency to the rightful winner. Once they see the "writing on the wall" they will flip to our side so fast it will make your head spin! Believe me!

You can also "keep the pressure up" with the public by posting signs and stickers IN THE REAL WORLD. We can bypass the fake news media blackout and commie social media censorship and WIN the "court of public opinion." We just need to think outside-the-box and not play by "THEIR" rules anymore!

Support for Biden is crumbling as more and more people learn the truth every day! Support for TRUMP has NEVER WAVERED and you can help give hope back to MAGA patriots who haven't heard the "good news" yet! Give them a TheDonald.win business card, found in the link below!

Here's the biggest issue, a majority in both the House and Senate need to vote to decertify the electors, while that's certainly plausible in the Senate I highly doubt a majority in the House will vote against what Pelosi says. What then? This is the same group of people who impeached Trump with made up charges because he started looking into what Biden did in Ukraine, they aren't about to let evidence or the constitution get in their way now.

He's calling for a full audit of every ballot in contested states, and if they can't, they'll object. If the audit turns out different results, they'll choose the electors in accordance to that.

Surely that's a fairly good outcome?

In theory that sounds great but he even admits in the release that their vote will fail:

We are not naïve. We fully expect most if not all Democrats, and perhaps more than a few Republicans, to vote otherwise. But support of election integrity should not be a partisan issue. A fair and credible audit-conducted expeditiously and completed well before January 20-would dramatically improve Americans' faith in our electoral process and would significantly enhance the legitimacy of whoever becomes our next President. We owe that to the People.

We will have to see, as this is prior to any sort of election fraud evidence being presented in Congress, it's more likely than not that many senators and house reps will join in and vote for tossing out ballots in several states based on that.

The key to this is simple: We need to keep calling our State Legislators, House Reps and Senators.

Auditing is really hard months later when we have proof of ballots, envelopes, etc. destroyed and chains of custody broken.

You're right, of course, but it's.. very hard to audit that on a large scale and to do so not only before certification in a couple days, but also before inauguration.

That's why this isn't really the path. Maybe legitimizing after Trump is forced to take drastic measures, and perhaps that's the plan in the end: Legitimizing it after he has to cross that Rubicon

In theory at least, if this were an honest audit, a failure to prove authenticity of the ballots and chain of custody would result in that state's election being thrown out or repeated - this time with only paper ballots and real observers. Will that happen? 1000000000 : 1 odds they do it properly and honestly.

While we should support him, we also shouldn't be fucking stupid. Given how politicians play their games, we should be looking for that double cross, and understand that this could simply be a way to make us complacent, get us to vote for them in the future, etc. All that matters is action and follow through. That's exactly what I was thinking. Now, a few days *after* the 6th, they can say the commission's audit showed everything was done perfectly and Biden was clearly the legitimate winner. On the other side of the coin, if they're being honest, this could be exactly what's needed to get more senators on board.

I'm excited about what these senators are doing and am very hopeful, but I can't help but be a little skeptical after having been betrayed so many times by these people. I'd love nothing more than for my skepticism to be misplaced, though.

I can't help but think this is just another political ploy being pushed by McConnell. I am glad they are objecting on the 6th but I don't trust a commission to do the right thing. If this so called commission is spearheaded by swamp politicians, it will just end up the same as the Warren Commission with JFK.

Perhaps I'm being a bit pessimistic, but this just seems to be a trick by McConnell to raise voter confidence and an attempt by the GOP to not lose all of their base for future elections.

I'm not sure of anything. I highly doubt McConnell pulls Cruz' strings though.

If you read Cruz' statement, the 1896(?) election was challenged and a commission was the resolution to the objection. Ther is actual US precedent for it, it's not a brand new scheme.

Sorry, but this sounds like a con job to defuse the Jan 6th protest. The commission will LIE and say the fraud will not have changed the outcome. We've already had enough analysis.

No more games. I like Cruz, and maybe he's sincere, but this is bullshit. We either win on the 6th or we WILL lose. We will never have another chance.

He could state the open and obvious truth that the election was stolen, not beat around the bush like a namby pamby wormtongued bitch. Anyone can see the fraud if they look at the evidence and testimony, and the reactions to that testimony (delay, obstruct, prevent audits of machines and ballots, prevent observers of voting and then audits, refuse to hear court cases) all of which point to these people being guilty as sin. A request for a Commission when the evidence is already clear is just another fraud.

If Cruz wanted to do this he should have done it TWO MONTHS AGO. Wtf do you think a commission is going to do this late in the game?

He waited on purpose. He isn't really fighting. He's doing a dance so he can look like he's fighting while he doesn't lift a finger. This is who he has always been throughout his entire career: a scummy Harvard lawyer. He's basically a more cucked Ben Shapiro pretending to be a patriot.

Never forget that 5 days of silence; it tells you everything you need to know about the GOP. Any true patriot party would have been causing a scene from day one - they LET the Dems rig it.

Pisses me off seeing this asshole take credit for fighting for Trump. He's the biggest rat backstabbing piece of shit there is. He didn't endorse Trump in 2016 and he didn't fight for him in 2020. Fuck Cruz.

They will pretend at doing a proper investigation, but it will be the same bullshit they pulled with the perfect phone call to Ukraine and the russian collusion, and Hillarys emails. They will use the media to sell their fake corrupt narrative and blatantly scam the whole audit/ investigation. Thats if they go along with it. They may figure its too dangerous and steam roll the whole thing and claim Biden got the Electoral votes. I would prefer that, then Trump will take action.

Contact all government representatives and DEMAND AN AUDIT IN EVERY STATE!!! Not just the 6 states in question or just the POTUS votes. All votes are suspect until legitimately verified and many senate, house and other elections will be overturned if properly audited!

It's great that he backing this, but why does it matter in the end unless we get a majority? Is it a unanimous vote?

Say what you want about Cruz... But over the years, I have started to like him a bit more - year after year...

Still far from perfect... But, he is a much better politician in contrast to 4 - 5 years ago...

Just my take though...

Agree or disagree...

Yes, and million angry townsfolk pounding at Congress' door on the 6th should affect their decision making, too.

A welcome announcement, but the posted quote is not the full sentence. The sentence ends with:

"... unless and until that emergency 10-day audit is completed."

We are the only people coming to save the day on the 6th.
